'Call for Sites'

Warrington Borough Council Local Plan Review

Call for Sites Registration Form

October 2016

Please note this 'Call for Sites' is for five or more dwellings or economic development on sites of 0.25 ha (or 500sqm of floor space) and above, Gypsy, Traveller and Show People and Minerals and Waste sites.

The identification of sites does not imply that the Council considers that the site is suitable for development, either now or in the future. It cannot be taken as representing either an intention to allocate these sites, or as a material consideration in the determination of a planning application.

Potential sites that have been identified will be further tested through the Plan-making process, including through the Spatial Distribution and Site Assessment Process, Sustainability Appraisal/Strategic Environmental Assessment, several stages of public participation and independent examination.

Please also note that all the responses and information received as part of the 'Call for Sites' will be published and made available for public viewing as part of the open and transparent Plan making process.

NOTE: Please read the accompanying guidance note [here](#) before completing this form and complete a **separate** form for each site that you are submitting to the Council.

Please return your completed form and any accompanying supporting material to Planning Policy, Warrington Borough Council no later than 5.00pm on Monday 05th December 2016.

(8) Site Availability

Please indicate when the site may be available

Excluding planning policy constraints, when do you believe this site could be available for development?

Immediately

(Note: to be "immediately available", a site must be cleared, unless being considered for conversions.)

If not immediately, please state when it could be available:

If the site is not available immediately, please explain why – e.g. the main constraint(s) or delaying factor(s) and actions necessary to remove these:

(9) Any Other Information

Please tell us anything else of relevance regarding this site if not already covered above that will ensure that it contributes positively to the achievement of sustainable development. Please use a separate sheet/s if necessary.

The site shown as edged for identification purposes only on the attached plan and referred to on the attached Response form lies on the northern edge of the existing settlement of Burtonwood, Warrington.

The land immediately adjoins the existing settlement and can be accessed off Lumber Lane and/or Aldridge Road.

Burtonwood is one of the key settlements within Warrington Borough Council's Administrative area and must be regarded as a sustainable, accessible location for development.

In my submission and in accordance with my Regulation 18 Submissions, there is a recognised need for the release of Green Belt land within Warrington Council's area to deliver the residential development necessary.

Such Green Belt releases of land for Residential and Employment land should be identified throughout the Borough in and around appropriate and established population centres.

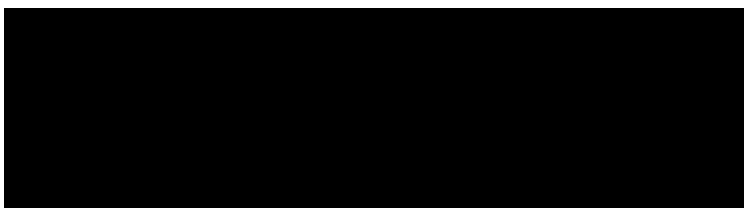

The land to which this submission relates is in my view such a site.

The site has the following attributes for release from the Green Belt for Residential Development:

- Warrington Borough Council's own SHLAA identifies that there are no site specific matters which prevent this site from being suitable.
- It is located adjacent to an existing settlement.
- That site is located in a sustainable and accessible location and therefore is appropriate for Greenbelt release.
- The impact of a release of this land from the Green Belt to the north of Burtonwood will have less impact on the Green Belt than the release of any of the other Green Belt land surrounding the village given that it is already screened from the openness thereof by existing houses and the landscape. This is a fact identified by ARUP in their work for the Council.

- The site is available and deliverable within a short timescale and can therefore make a contribution to the Borough's housing needs.
- The site is of limited landscape value or importance.
- The site has good highway access and excellent highway and public transport connections to the rest of the Borough and employment and retail uses therein.
- All mains services are readily available.

For all the above reasons, it is my submission that this land should be identified as a preferred option for Green Belt releases for Residential Development.
