Subject: Warrington city status comments

Why oh why does Warrington want to be a city when surrounding towns like Wigan, Widnes and St Helens are perfectly happy as they are? What difference will it make? Why take up large areas of green field and green belt land by filling them with ugly buildings and destroying valuable wildlife in the process? It makes no sense!! Warrington does not have the infrastructure for its proposals and the whole idea is totally unsustainable. Just be happy to be a town like it has been for many years. Regards Jean and Pete.
