Subject: Planning

All over the town (if or ford's anything to go by) we have car sales and mobile advertising we need a strong enforcement team that tours the town and is proactive what we see on Winwick Rd is a eyesore and unless calls chase up regulatory controls, nothing is done

WE as a town need a ring road trying to get to work or home is a disgrace for a town that has visions to be a city. Also schools are the biggest problem regarding traffic as parents criss cross the town taking their kids to the school of choice we should as a council do all we can to encourage use of nearest school, I know about government guide lines and not upsetting electorate but we should be doing more

We should as a council try to bring the environment of all areas to equal standards too much talk not enough action calls south of river use old nutmeg about paying more rates
Just take bus ride round our town (calls that is) and check it out

Regards Roy Humphreys
