The standard tool appears to have contracted my response to Question 12.

The missing text should be added from here.

"Consider a Major re-write of Policy QE4 to prevent smaller developments of Affordable Housing falling into allowable exceptions.

Policy MP6 should be changed to include the Westbrook element of the Northern expressway from Westbrook Way to the proposed junction with an extended Birchwood Way at the A49 between Alder Lane and Long Lane. The ultimate delivery of a suitable graded junction will be much higher if done at a later date when it is unavoidable. This is a suggested Major change.

The absence of Major changes to the Stockton Heath and the South Warrington sections is probably a mistake as they will be seriously affected by the traffic from the new bridge crossing to the A56. The lack of Major edits to add new objectives could be considered a dereliction of duty."

I could recover the whole answer using either Adobe Acrobat 10 and Acrobat Reader DC but it was not available on Microsoft Edge on Windows 10, please ensure you get all the text.

Regards,

Philip Mart
