**Subject:** Peel hall park

To whom it may concern,

I am writing to inform you that I oppose the development plans for Satnam to build on peel hall park. The traffic in our area is already a massive issue Capesthorpe rd for one is always built up parking is bad and early in the morn and 5pm the traffic is horrendous due to people cutting through to Birchwood to access the motorway. Peel hall is our last large green space in the area with lots of people using it daily. I personally like to go bird watching there and take my family to use the park and to walk the dog but I also know alot of others that like to go their to enjoy the wildlife and the peace and quiet. My Mum lives in the area and struggles with emphysema and built up areas make this worse due to car fumes and pollution with the added traffic and lack of greenery I am worried her health will get worse.

The animals in the park will suffer massively and I for one have seen the damage that has already been done by this company tearing shrubs and bushes up during nesting season last year and then spraying weedkiller everywhere with no warning again a health hazard to the elderly with breathing difficulties but also hazardous to dog walkers who were unaware and the wildlife there are photos of birds being coated and killed at the time of the spraying and nothing seems to be done about the irresponsibility of the man that runs this company no one seems to care. I have seen foxes, owls, bats, newts, all kinds of small/song birds, birds of prey a vast amount of hedgehogs which have decreased massively in most areas even stoats have been seen which are really hard to see as they are very private animals they will all suffer if these plans go ahead. As time goes by Warrington council seem to only care about building houses and cramming more people in but if they spoke to or cared for what the people who live here think then they would know most people don't like how many people now live in Warrington and most people think that we have lost the country feel that we used to have trees and green spaces are constantly being ruined for more and more houses . I personally think that crime will go up in the area due to some of the new houses will be backing on to the Grasmere Ave estate. Another supermarket, pub and take aways are unnecessary.

In my personally opinion I think if the council bought this land and paid for it to be kept open as a park and nature trail/reserve it would serve people better than 1200 houses. Our children need someone to play and learn about nature our families need somewhere close by to go for family walks and make memories what we don't need is more pollution more car wars and our wildlife to die-after all money can't buy oxygen the trees give us we really do need a green space in our community.

Best wishes
