I have just found out about affordable housing development plans on the field directly facing my home. Apparently they were agreed in December, I have never been contacted about this and I doubt my neighbours have either. This development will significantly devalue my home. You have been working on the project for over a year and agreed it almost a year ago and drew up plans, and at no point sought to speak to the residents that pay council tax to you every month, who will see their properties reduce in value hugely over night. Not to mention the obvious increased traffic it will cause to an already under funded road network. The reason I chose to buy here [REDACTED] years ago is because it is a quiet village, allowing people to build on green belt land to make a quick profit is disgusting. Please get the person who made the decision to give me a call when you receive this email, I don't want a letter explaining the decision, you haven't consulted residents and so as far as I'm concerned a decision has not been made, we pay to live here, you're here to serve us not the other way round. I recently had my home valued and if the plans go ahead I expect you to purchase it from me at that price, I will be seeking legal action should you refuse.
