

Dear Sir/Madam,

I am writing my objections to the Warrington Borough Council's Preferred Development Option (Regulation 18 Consultation July 2017).

 concerned that this development will have a major impact on where we live. The following are some of the issues that I will directly have an effect on our home and lives:

- Where I currently reside I experience high volumes of traffic already. There is little or no infrastructure to support existing traffic let alone a further increase.
- The level of noise is currently unacceptable and we are concerned that further development particularly with the Peel Port Warrington plan will obviously mean more disruption and noise and pollution. The infrastructure is poor currently and we have to negotiate a lot of traffic to gain access to our property. We are extremely concerned that the development of a 24 hour, 7 day a week operation will have a massive impact on our standard of living and wellbeing.
- The potential loss of green belt will have an awful effect on nature and the health and wellbeing of the local residents. In effect losing Moore Nature Reserve would be a major disruption to us and the local community.
- The greenbelt was originally put in place to protect boundaries between areas. This plan has taken nothing into consideration for the residents of Moore. The green belt that we currently have protects our boundaries, provides noise protection and is essential for our health. This plan seems to blur the boundaries between Moore and Warrington. This means that the local residents and visitors to our lovely area will lose a popular and well used nature reserve where the Port Warrington is expected to be developed.
-  directly affected by the Port and this will affect noise levels during day and night time.
