

Dear sir

The P.D.O for Warrington is ill conceived the plan shows destruction of green belts this will cause major damage to our wild life and basic way of life.

I want to live in a town not a city I have lived here all my life and love it here.

Any councillor who think he or she is on a nice little earner with city status should think twice.

Come the elections any councillor not backing the residents wishes will suffer the backlash.

Thank you
