

26 Sept 17

Dear Sir,

I write to strongly protest the lack of any consideration in the P.L.D Plan for 2017, this should be scrapped in its entirety.

Garden City Status? May I ask exactly where will the garden be?, as it appears that the plans are set to destroy virtually all the green belt land whilst brown sites are available?

Conservation of our wild life is hugely important, we need preservation, not decimation if we are to preserve what little we have for future generations.

The population of Warrington will have environment completely changed from the one they chose to reside in. Has consideration been given to any possible consequences of Brexit?

Infrastructure is lacking for the existing community, lack of public transport, basic needs, i.e. bread, papers, milk, these need to be available within walking distance. Any concerns for elderly who are unable to drive? Parking is an issue now without a further 40 thousand plus cars.

Roads are inadequate for existing traffic.

Stockton, Heath is choked all day. Commuter time at the Cat + Lion crossroads at Stretton has permanent tail backs.

On Thursday 17 Aug, 17 the M6 was closed at Thelwall viaduct. The entire area, and surrounding areas were grid locked. There were queues down Wombrook Road until 9pm.

I urge you to give some consideration and thought employing significant agencies for input to arrive at a more realistic plan.

Yours sincerely
