

PDO 1491

MONDAY 26 SEPTEMBER 2017.

Deal, Warrington Borough Council Planning Policy team.
I am writing to you in relation to the
Warrington Borough Council local plan preferred
development option.

I would say that one of the main reasons
we decided to buy a house here was due
to its semi-rural location and friendly
village atmosphere. People who now visit us
often remark on what a beautiful place
more really is, surrounded by working farm
land and green space. It is like a breath of
fresh air compared to the busy roads and
estates elsewhere.

I have had the opportunity to read the
proposed development option and viewed the
relevant maps showing the before and after of
what is proposed and it is fair to say I am
absolutely horrified to see what is planned.

The green belt of land which surrounds
my beautiful village is to be built on with
thousands of houses, more roads, cars, shops,
people without a second thought for the
people who already live in more but also
the devastating impact this will have on
the flora and fauna of this once green and

pleasant land forever!

MOORE and its green belt including a stunning moorland nature reserve will be lost forever due to WARRINGTON Borough Council riding rough shod with their plans to build and expand. I am aware that Warrington Borough Council may be not too disturbed by a letter from me as I live in MOORE which is covered by HALTON council but surely the thought of losing all this green belt and agricultural land must be an issue to you. Many many people who live in Warrington come to spend quality time in this area to grab a breath of fresh air and to see the wildlife and green space. With one foul swoop the landscape will be changed and gone for future generations.

Another concern of mine is the increase in traffic through the village as a result of the thousands of new houses surrounding us from all angles. This brings more pollution, more need for schools, doctors, dentists, shops. I am aware of the terrible problems that the CHAPERONS estate has had in West Warrington with hundreds of teenagers running riot and intimidating residents due to a lack of anything for them to do!

I am utterly disgusted with the thought of this whole proposed plan and I would like you to consider my thoughts and objections before going ahead with this wholly inappropriate and unnecessary plan.

Regards
