Subject: Red Lane development Appleton.

We strongly oppose this development the Red Lane bridge and Hough Lane bridges are only suitable for one car to pass over at a time and there is already problems with traffic flow at the moment. Where are the access roads for these new houses we live on Birchdale Road will this become a rat run? Also where are these new residents going to register with doctors, schools etc because the present facilities cannot cope at the moment getting a doctors appointment is a nightmare.
