Application Number R18/105 and R18/1003

Comments: I object to these planning applications because:

1. Building would impact negatively on traffic in surrounding roads, including Red Lane and Cliffe Road;
2. Building would impact negatively on quality of life of residents because of the strain on infrastructure: Roads, utility supply, schools, medical and other social amenities, which will not be improved proportionately.
3. Building will impact upon wildlife and enjoyment of green spaces for current residents.
