Hello , thankyou for the information and website links

What are you expecting from this stage (of " consultation ")? , eg comments / views on individual sites ?? , what level of details / specific objections ?? (there is a list)

The feedback I have had from members of the public who attended various of the " presentation " meetings was that from the concerned public point of view they were a waste of time , with poorly presented , sparse information and no one who could give a proper answer to any relevant questions .

I would be grateful if you could provide me with answers to the above questions and a contact person for further discussion , thankyou
