To whom it may concern,

Here is a list of my objections to the PDO, specifically the Garden city in South Warrington and the Tpt bypass.

1. Reduced value to my property due to living close to a major thoroughfare.
2. Loss of habitat to many protected species including Bats and Newts.
3. Raised pollution (specifically particulates and nitrous oxides) from increased motor vehicles.
4. Loss of an area to exercise with my children (running and bike rides).
5. Increased urban sprawl due to concrete structures e.g. houses and warehouses built on previous green belt land.
6. Increased congestion due to increased population in the area.
7. Loss of village lifestyle due to influx of new homeowners.
8. Pressure on existing services such as local shops, doctors surgeries and dental practitioners.

Please consider local residents viewpoints before destroying our villages.

Best regards
