

[REDACTED]

I write on behalf of myself [REDACTED]
regarding the proposed new plan.
We do not agree with this plan proposed.
The schools are limited places now and parking in our road is a nightmare as a result.
The traffic on the road is horrendous and now dangerous in my opinion, at various times
of the day
The infra structure of the town cannot support a huge influx of people.
We do not have all the services a bank, a post office, gp's dentist's, nurses, clinics etc
required.
We do not have a sustainable community- not enough older support services
We do not have the open space for the kids, recreation etc needed.
The village- its uniqueness and character, is being eroded to the detriment of all.
Where is the OAP housing to help release property here?
Where is the local housing ownership for the local family's?
Where/how are the other support services for all this enlarged community going to come
from and probably commute/park in the town?
The local needs are not met, repairs, street cleaning, maintenance issues, light repairs,
toilets, paths, walkways, roads etc...promptly.
We do not agree with the proposed changes.
