Dear Hans Mundry and Karen Mundry,

I am writing about the proposal for the main road along the route of the railway embankment through Latchford, Grappenhall and Thelwall. I live right by the embankment [REDACTED], and at present, [REDACTED] [REDACTED] I have been resident here for [REDACTED] years, and have always felt I would remain here for the foreseeable future.

This proposal is very worrying - obviously the compulsory purchase issue is a priority, as I'm a [REDACTED] tenant and this road would make me and my [REDACTED] children homeless. Secondly, if my home wasn't under the compulsory purchase scheme ([REDACTED] I am certain it would be) the noise of passing traffic on what essentially is a bypass, would make living here intolerable.

[REDACTED] and the noise, upset and general disturbance would only exacerbate my health. I am strongly against

this road being built, and I look to you for support on the issue.

Yours sincerely,

[Redacted]
