

To whom it may concern,

I love living in Warrington. We moved here because of the range of local amenities in close proximity to our home which is in a semi rural location in Grappenhall. We were willing to pay inflated housing costs as we were paying not only for the beautiful house, but the beautiful surroundings too. We chose to move somewhere with a village feel. The preferred development option, proposed by Warrington Borough Council threatens to change all of the above, our way of life and the future of our town for ourselves and our children.

I write to voice my objections.

I appreciate the need for development but strongly object to the extent of development being proposed within our local postcode.

Yours Sincerely,
