

Dear Sir

I am appalled at the contents of the new Warrington Local Plan. It is clearly not wanted by local people and will ruin the South of the town. Please rewrite it after listening to what the residents want.

What is wrong with it :-

1. Destroys valuable Green Belt, farmland and countryside.
2. Creates huge traffic congestion.
3. Creates huge amounts of air pollution in an already polluted area which is boxed in by motorways.
4. Medical provision will always be playing catch up.
5. Education will be put under pressure.
6. The rural environment will be destroyed forever.
7. The Town is already a bottleneck.
8. The Garden City Suburb is a ridiculous idea.
9. Where will these people work?
10. Nobody wants our town to become a city.

I suggest this plan is scrapped, you listen to what local people want and write a sensible locals plan.

Yours sincerely
