

PDO 2112

I am writing in regards to your proposed new road involving the Trans Pennine Trail and Railway Bridges and Embankments and also the hope of building 29,600 new houses in the near future. I feel Warrington Council has completely lost the plot. First of all what hope of you of helping traffic congestion with your plans. Every house these days has on average 2 cars per house. That is 44,000 new cars at least brought into the area. I feel you can't see further than the end of your noses. Also the Issue next year of the proposed Pop concert, that decent Council would bring thousands of crazy Drug addicts

P.T.O.

into an area of families and
old people and allotments and a
Handicapped young peoples project.
You disgust me, with any true
concern for the residents of WPAH
and surrounding areas it doesn't
exist. You seem all about making
money and trying to be a city.
The City being your ego trip.

People would live in one if
that was the case like Birmingham
etc. Nobody here wants that, they
hate the thought of losing more
green belt. Just a concrete jungle
is what the Council wants it seems.

Signed
