

PDO2114

Dear Planning Policy Team,

- Just a note to add my voice to others against the PTO .
- 1) Roads have been mentioned - this will be difficult as proved by the current provision.
 - 2) Medical centre mentioned - how? Given the ongoing shortage of doctors.
 - 3) Schooling - how? Given the shortage of teachers. Even to-day (8th 9.17) the "Daily Telegraph" reports on teachers leaving the profession - an echo of

doctors quitting or going abroad.

I trust that others have mentioned the above - I have not discussed my concerns with anybody - as it all sounds quite logical. When will houses be built? - not in our meadows, please.

Yours faithfully,

p.s. Is the preferred development
an option?
