

PD02134

August 30th 2017

Dear Sir or Madam,

It is with reference to the said letter, regarding (PID) Consultation concerning to Railway Embankment in Latchford, Thelwall, Grappenhall

Myself and My Family object very strongly to this Strategic Transport Route, not because we have lived at N^o

for Years, as we are fully aware the space of time means nothing to you - good - selves.

Looking on the other side of the coin, there residents that have lived in just 12 months, and were never informed of this Development, whilst paying Search Fees. These people

have been mislead into expense
bring their homes up to standard.
Not to mention the mortgages they
have taken on.

Had I known about this
development, I would never have
undertaken work on my home in
the last 12 months.

What about the upheaval to
Schools and Children being uprooted

What about the unthinkable
accidents that would occur
should Traffic be derailed in the
middle of the Dover Rd Estate.

What about the (Eye-Sore) that
all and Sunday will have to
enjoy every day of which will
no longer be able to escape.

We are all very much aware
of the Brick Wall you put to all
residents along the route from
the beginning to End.

There is also the Air Pollution
we have to endure, and yet the
Government, plus Councils are
considering putting this Dual Carriage
Way right through these Estates

Taking all this into consideration
the very idea is monstrous

Lastly any objection may be all
in vain. But let's not forget it
has taken a Third Party to make
the whole community aware of
these plans very underhandedly

Yours Faithfully
