

To all concerned

I write to lodge my concerns and non acceptance of the plans to build on Peel Hall Park.

I had originally objected in the first instance when Satnam's were refused building permission. I am aware that Warrington Borough Council have since issued a local plan, including housing land availability assessment July 2017 whereby it has been deemed as suitable, available and achievable to build on this land.

I do not feel it is suitable land to build on. I feel that the buildings on this site will be disruptive and hazardous to the local area and it will cause serious traffic congestion. I feel that it is the only remaining green space area available to me locally and I have used this area for [REDACTED] years. The buildings will have a serious impact on wildlife which, again I have enjoyed in excess of [REDACTED] years and do not wish to lose this valuable area to enjoy. I am aware that it is an area enjoyed by many of various ages and it is an important area to the community.

Again, I strongly object to having the Peel Hall area destroyed by the plans to build these various domestic and commercial buildings on it.

Regards

[REDACTED]
