Comments: I wish to object to the application to build 495 houses on land at Red Lane, Walton Lea Road and Hough's lane Stockton Heath and Walton. The proposed development would destroy a natural beauty spot and wild life habitat which is an amenity to local residents as well as create significant congestion to the local roads. The highway infrastructure is incapable of further congestion particularly Red Lane. The developments would damage the environment and create drainage and sewerage problems and increase flood plain risks for the area.
