Dear Sir

I would like to register my objections to " Preferred Development Option" for Warrington.  
The vast majority of Warringtonians do not want it to become a city we choose to live  
in a town.

Your proposals shown on the map are unacceptable

Your plans for developments of greenbelts etc. are acts of bureaucratic vandalism.

the affect on the environment would be catastrophic.

Destruction of wildlife habitat and more pollution in an already polluted town.

The proposals seem to stem from the inflated egos of some councillors and town planners.

Councillor Prices pipe dream of "city of culture" is a non starter.

I suggest he and other fellow travellers read Shelley's "Ozymandias".

Power is temporary.

The people of Warrington will decide his political fate and will not forgive his part in this

I also strongly object to section on the form asking information about race religion and sexual orientation.

These questions belong to less enlightened times and have no bearing on the matters in question.

Regards
