Yet again Satnam are appealing against the rejected planning application by WBC for Peel Hall development. When is a rejected planning application several times over not the end of the matter?

- This area of land is the last piece of open space left in the area.
- Warrington apparently is one of the worst places in the North West for air pollution, this development will compound that fact.

The supporting infrastructures are not adequate for such an ill thought out scheme.

You have seen and heard all the arguments against this proposed development over the years. Nothing has changed.

I trust you will still oppose this appeal.
