

[REDACTED]

Dear Sir/Madam

I wish to register my objections to the Warrington Local Plan.

I moved to Appleton Thorn over [REDACTED] years ago from Orford to live in a quieter more rural area. The village has seen quite a growth in that time along with the inevitable increase in traffic. Although we lost our only shop some years ago people still want to live in this village and are prepared to travel some distance for shopping or use the internet.

[REDACTED] few months ago planning was refused to build 79 houses in the centre of the village. It was worth the 3 years hard work that went into that result.

Most people appreciate that 'progress' is inevitable. However, this plan is not progress it is annihilation of our surrounding green space and our wildlife - rabbits, birds, foxes, frogs, toads etc. There appears to be no support for health services including doctors, dentists and local clinics. The roads are in an appalling condition and will certainly not take any increase of traffic which according to the plan will result in thousands more vehicles using our already chocked and badly maintained roads.

[REDACTED]
The atmosphere will be full of lead from increased traffic [REDACTED]
[REDACTED] more pressure on the health services, [REDACTED]

I have not heard that any local person is in support of Warrington 'City Status'. Why??
What will that status give Warrington? Is someone out to make a name for themselves - is it financial or perhaps a knighthood??

Please consult with the residents of South Warrington. This plan is NOT what we want.

Yours most sincerely

[REDACTED]
