

[REDACTED]

[REDACTED]

---

Dear Sirs,

Although I do not live full time in Warrington, I have been a regular visitor since my dad went to live there in [REDACTED]

Since that time I have regularly used the Trans Penine Trail for leisure activities as well as enjoying peaceful walks around the surrounding green belt areas.

I was appalled to hear of the Warrington Preferred Development option which will effectively destroy large parts of the protected green belt area. I was further appalled to learn of the proposal to replace a long section of the much loved Trans Penine Trail with a new high level "strategic" road which will also traverse through the peaceful villages of Grappenhall and Thelwall thereby destroying these tranquil communities forever.

I therefore write to notify my objection to this Preferred Development Option and request that Warrington Borough Council have a rethink to prepare proposals which will be less destructive to the greenbelt area, wildlife and the peaceful way of life of the local residents.

With Anticipation,

[REDACTED]
