---

We find these local building plans quite unsuitable for a village this size. The infrastructure is insufficient now for the needs of the village, 2 buses struggle to pass in Smithy Brow. There is no shop, the schools are not big enough for the 4/5 bedroom houses that are planned. The PROPOSED access Abbey Close / Deacons Close is inadequate for heavy building traffic to allow access as normally there are cars permanently parked during the day, one house in Abbey Close regularly appears to hold meetings which can generate 4/5 cars at a time making it extremely dangerous for other road users. Deacons Close residents fail to stop at the junction of Abbey Close These are just a few objections but We are sure other residents feel the same. As these objections have to be received in such a short space of time without thought of residents who are not able to reply by e-mail it appears that these objections will not be approved by the council and the decision has already taken.
