

[REDACTED]

---

I am Warrington born and bred and have always been proud to come from the town of Warrington. I am furious at the plans that are being proposed that will destroy the landscape of the town and surrounding area. I am completely at a loss to understand why Warrington wants to become a city, it is totally unnecessary. Every time there is any problem on the M6 or other surrounding motorways, the whole town grinds to a standstill and it can take hours to get from one side of the town to the other, surely with the planned number of houses this problem is going to get even worse. I live close to Stockton Heath which when I go to do shopping it is often hard to find a parking space, again with these plans, they don't take into account where people are going to park their cars. It is extremely difficult to get an appointment on the day at any of the local doctor's surgeries and waiting lists for treatment at both Halton and Warrington hospital are often long, this situation will only get worse with more people living in the new houses. South Warrington has some beautiful countryside and fields which will be home to many types of wildlife, including lots of species of birds, bats, voles and newts to name but a few, has anyone thought where they will live? As I was driving home [REDACTED] last night a very large hare ran across the road to the fields, it was a wonderful sight to see which sadly could become a thing of the past. This whole plan has been very poorly thought out and should not go ahead.
