---

I oppose development of the greenbelt land around Lymm on the basis that the roads in and around Lymm are too narrow for the extra volume of traffic that would be caused by development.

The schools, doctors surgeries are already full capacity and ought to be extended prior to any further development if this is unavoidable.

The high school is already a 2000 pupil school and it is not in pupils' interests to make it any bigger. If more secondary schooling is required this ought to be a fresh school which should be built prior to any further development.
