Dear Council

As a south Warrington resident I am objecting to the proposed Local Plan on many levels and have to question why south Warrington councillors have been excluded from the work undertaken on this plan so far?

- 1- I don't see why Warrington wants to become a "City". It can't cope with being a town.
- 2-Greenbelt is there for a purpose, it is being used for agricultural purposes, and we need all the fields we have for this purpose.
- 3- brown field sites should be used first.
- 4-scale of south garden suburb is far too large, the area will not be able to cope with volume of traffic, as well as infrastructure such as schools, housing, dentist etc.
- 5-loss of green space detrimental to health
- 6-unacceptable noise, pollution and vibration – both for when building on this massive scale takes place and for the volume of traffic after
- 7-wildlife matters- where is your environmental and ecological impact survey?
- 8-why is such a large scale development necessary? use up brown field sites first.
- 9- the Countryside matters – you can't replace it!

Please confirm to me that my objections will be considered.
