Dear Sir/ Madam

Having served this great country of ours, I object in the strongest possible terms about the proposal to obliterate the social enhancing beauty and legacy of Grappenhall.

I am a regular user of the trans Pennine trail at Grappenhall and It is indeed areas such as these that lend themselves to the growth of future generations. I know you are aware of those benefits, so I won't insult your intelligence by pointing them out, indeed your own loved one's would thank you for taking the first bold steps against this faceless industrial march, a march that will inevitably swallow your loved one's future as surely as this callous action is devouring the harmony that enhances our current youth. The decision is yours.....Finance or a future and communal family unity.

I remain your obedient servant.
