

---

I don't want the new houses or road to be built as it will ruin lots of nature. Nature is important to me and my friends. At school I have learnt that we need to look after animals and to look after the world. It is also a safe space for me to play and ride my bike. I don't think it will be safe any more with lots more cars and the lorry that will come when the building happens.

Don't build it please. It will make me sad.
