Council's Preferred Development Option Consultation

Ref: R18/127 @ 115 Parcel CR4 SHLAA Ref 15231

Plot Ref: R18-095

Dear Sirs

I write to object to the Council's general Local Plan Review to declassify and/or or release green belt land for development.

Specifically, I object to the plans to declassify and/or release green belt land for development in the Parish of Croft and surrounding village areas.

It is my firm belief that the proposal to allow *"a limited amount of growth in the outlying settlements to a level we think can be accommodated by existing infrastructure and without impacting on the character of the settlements"* does not apply and is not a fit with the Parish of Croft and is wholly unsuitable when considering the number of alternative Brown Field sites within Warrington District which could be utilised over the next 20 years period to meet the demands set out in the Review.

I trust you will register my objection in the strongest terms and avoid the negative impact the plans would have on the character, life and future of the Parish of Croft and surrounding areas.

Yours Sincerely

A black rectangular redaction box covering the signature area of the letter.
