Subject: Objection to planning application R18/105, R18/100

I have lived in the Walton/Appleton area for the best part of 60 years and I'm very concerned to hear that planning application has been made for one of the few green areas left in this area. I walk in this area daily and the loss of this wild life habitat would have a huge impact on the local wildlife - I see badgers , foxes , buzzards, rabbits etc on a daily basis, it would be devastating to lose this local amenity.

Apart from the impact on local wildlife the area doesn't have the infrastructure to support the building of 495 houses - I live off Red Lane which is already a bottle neck, during the morning and evening rush hours there are constant queues of cars waiting to negotiate Red lane bridge and backing up on to Whitefield rd. Red Lane could not withstand another 1000 cars a day using it on a regular basis

As I said I walk across Hillcliffe on a daily basis and in the winter the field adjoining the Bridgewater canal is constantly flooded, I would not want to live in a house built there.

Regards
