Subject: Proposed housing in south Warrington

Dear sir
I have been a resident of south Warrington for [REDACTED] years and am writing to express concern about the proposed new housing development in my area. At present the problems with the road system causes congestion on a good day but any problems on the M56 or M6 makes it almost impossible to go about everyday journeys so the proposed new housing, without considering extra expensive road systems will be a disaster for the area
The doctors in my area are over subscribed and it is

so difficult to get to see a dr that an increase in population will cause huge problems,particularly for the vulnerable members of the community.

Schools will also be very stretched [REDACTED]

[REDACTED] I am very concerned that class sizes will increase which in itself will have wide ranging repercussions on the education of our next generation.

My main concern,however,is the use of green belt land to accommodate this new development and I cannot understand how the council can even think about using this land.Surely the rules on green belt are such that it cannot be used but kept as countryside for all to enjoy.Some of these areas are of natural importance and I think it's a disgrace to even contemplate this idea.We all need places to walk and cycle for recreation ,sheer enjoyment and the nations well being.

Let us keep south Warrington a pleasant place to live...these proposals will do just the opposite and I,like so many of my friends are outraged at the council.

Kind regards
