Dear Sir

We feel we must express our misgivings about the PDO first stage of the Local Plan. We are concerned that there has been planning of the infrastructure required for the amount of new housing for this Garden City Suburb. New roads will need to be made and probably houses will be demolished for this. We were expecting there to be an increase in housing etc but not to the extent envisaged in this proposal. We also feel that the population of Appleton, Grappenhall and Stretton should have been presented with more information regarding this scheme

Yours sincerely
