Planning Policy Team for Lymm,

We need to secure the open green belt spaces to maintain our separate identities for Lymm and Thelwall, Lymm and Oughtrington and Lymm and Broomedge.

There are really no more vacancies in the Doctors Surgeries and the Primary Schools.. The High School is full to bursting with restrictions now on new pupils addresses.

The existing residential road structures along with sewage and water is not adequate to accommodate other developments.

Parking is a great problem in the village centre and on narrow residential roads, and the Village lacks a central post office and bank

In addition there are 3 closures of businesses recently in the village, so that the parking becomes much more important.

We would ask that if more homes have to be considered for Lymm then more small affordable homes and apartments blocks for the elderly are only to be developed.
