

[REDACTED]

---

I would like to make you aware of my objections to the plans for 8000 houses etc in South Warrington.

My objections are:-

- improper use of green belt land
- loss of amenities
- the resultant traffic congestion from the enormous increase in the number of cars
- the resultant pollution problems (eg: noise; air pollution etc)
- the green dividing corridor between Warrington and the surrounding areas will be totally lost (and its visual and physical benefits). Warrington will just become one enormous housing estate and industrial estate ..... enough is enough!!!
