I strongly disagree with the development plan proposed.

1. I don't know one person (family, friends, neighbours or work colleagues) that want Warrington to become a city. If I'd wanted to live in a city I would have chosen to live in Liverpool or Manchester. So why is our council pushing for this? Is this democracy?

2. It will adversely affect Many(most) residents of Warrington with the roads becoming severely congested. I work at Warrington hospital and it sometimes takes me 1 1/2 hours to get home (3 1/2 miles). Patients arriving an hour or more late for appointments due to traffic conditions.

3. It also concerns me that an increase in road congestion will impact people's health. [REDACTED]

With an increase in risk from inhaling fumes/ pollutants. So these plans will potentially have an adverse effect on this medical condition.

4. It sounds as though our council have chosen to plan for considerably more homes than are required. Why are we destroying OUR local green belt when it is NOT necessary? Many Of Warrington's residents will enjoy the use of green belt to enhance their lives. I'm sure Warrington residents are willing for small scale development to ensure housing needs are met, but this seems well beyond what we should be accepting.
