

[Redacted]

---

I wish to object to your recently published preferred development option on the grounds that:

- a. Current road infrastructure in South Warrington does not cope with existing demand and these proposals will add significantly to the problem without offering effective solutions.
- b. Butchering beautiful greenbelt is unjustified when other brownfield options have not been exhausted.
- c. The proposed plans will have a major negative impact on the environment.

Please take these comments into account.

Kind Regards
