> To whom it may concern

>

> I have lived in [REDACTED] Street Latchford for all my married life ([REDACTED] years), I am devastated to find out that our community could soon be destroyed if houses are going to be knocked down for building roads and flyovers. I have lots of friends who live on this estate and it means that whole communities could be split up, where are these people to go? Where will the money come from to rehouse them? a house is not just bricks and mortar it's a home.

>

> My daughter has bought a house on [REDACTED] Avenue [REDACTED] years ago, this house was her grandparents house that they lived in for [REDACTED] years, she always said she wanted to buy it, bought and now doesn't know whether she will have a home in the next few years or not as she lives right near the Manchester Ship Canal.

>

> I frequently walk my dogs at Moore and they love all the wide open space, where there is lots of natural beauty that could also flattened.

>
