

[REDACTED]

---

Hi,

It has been brought to my attention that there are a number of proposals for the development of the land directly adjacent to my property [REDACTED] Croft [REDACTED]

Apart from the significant impact to the value of my property the development of the land threatens to displace a number of protected species that inhabit the proposed area.

Please can you advise as to the correct procedure for myself to lodge my concerns and when the closing date is for these to be filed.

Kind Regards

[REDACTED]
