Subject: Proposed development in Lymm
Date: 23 August 2017 [REDACTED]

Dear Sir/Madam,

I have read the information regarding the proposed development in our local area.

Despite understanding the need for housing, I have real concerns regarding the use of our greenbelt land, the infrastructure of our local community and longterm care and safety of our existing residents.

I have been living in Lymm for 20 years and even in that time have seen it grow to breaking point. The GP practices are stretched and the roads and parking are a nightmare. Luckily there is a strong community spirit in Lymm and this resilience, in my opinion, has ensured the coping strategy for the village's growth so far. Unfortunately, I don't believe that this resilience can, or in fact should be expected to, cope with further development.

I would also be interested in knowing where the profit is going to go from the rape of our lovely community.

Regards,

[REDACTED]
