[REDACTED]

---

Dear Sir/Madam,

As you are probably aware now, there is a lot of worry and objection towards the development proposed in Grappenhall and the surrounding areas. I would just like to voice my concern too.

I moved into Grappenhall a two years ago because it had the countryside. As two [REDACTED] with young kids. That peace and sanity, that I countryside can deliver, was needed.

I appreciate new housing needs to happen but not on the scale you propose. I know many people that were intending to buy around here and have since pulled back their offers. I'm sure they can be an option that doesn't ruin such a vast amount of the green belt land. I don't want to live on a building site for twenty years and that's what I feel is about to happen.

Please look again and see if there's an option that doesn't create such loss for the area.

Regards,

[REDACTED]
