Comments: I would like to object to this proposed development as I believe that the increased useage of the road network would be untenable. The plans to date include numerous housing backing on to [REDACTED] without any real break or landscaping to protect existing properties.

The building activities, noise and disruption we would suffer would be apparant for many years and likely to reduce the value of our properties.

Futher access through [REDACTED] would cause great stress to the residents with increased traffic flow through a quiet area of housing

This proposal Just does not match the available road infrastructure and is unreasonable
