

[REDACTED]

---

Sir,

I would like to add my absolute opposition to your building plans for my area of WA4. Having lived here for [REDACTED] years, & seen the growth in traffic at peak times on the very limited road system, it scares me as to what effect your building more housing WITHOUT expanding the road system will cause. It doesn't take much brain power to realise that 400 new houses means 800 additional cars to the road network.

Make your official capacity realistic & stand up to these money grabbing enterprises who are only interested in making money on the project, not to the additional problems that these development plans will cause the EXISTING HOUSEHOLDS.

Regards,

[REDACTED]
