Subject: Development plan for South Warrington

Just a few questions for the Planning Policy Team

- 1 Why do you want to destroy Green Belt & open countryside when there are plenty of Brown Field sites about ??
 - 2 Traffic problems already exist in this area particularly on Fridays & when (frequently) there are incidents on the motorways which surround the area Why do you seek to severely increase this problem??
 - 3 Why have South Warrington councillors been excluded from the consultations ??
 - 4 Why do we wish to become a city Prestonians aren't impressed??
- The whole project is complete unjustified nonsense [REDACTED]
