Dear Hans Mundry,

[REDACTED] i am a resident of [REDACTED] latchford ,it has come to my notice in last weeks guardian and also by a leaflet posted through my door yesterday that there are plans to run a high level road ,along the disused railway line ,which runs very closely to my property.It is causing me great anxiety that my home may be under threat of compulsory purchase [REDACTED] ,a home i have just spent [REDACTED] pounds on a new kitchen and bathroom.that my peace and quiet is going to be destroyed and that i and my family are going to be exposed to increased noise and pollution.

Please could you explain to me ,why is this, the first we have heard of this major road development.I would like to demand a local consultation for the people of latchford, who will be affected.What rights do we have in this matter,would you like this on your doorstep, how would you feel if it was your home at risk,how would you feel about the extra noise and pollution this road is going to cause on the health of the residents in this area .We the residents of [REDACTED] [REDACTED] need your support in opposing and minimising the damage that this development is going to cause .

yours sincerley [REDACTED]
