

[REDACTED]

[REDACTED]

Dear Hans Mundry,

I want to raise my concern and shock at the recent announcement of the Warrington Preferred Development Plans & TPT Bypass.

[REDACTED] originally living on [REDACTED] Last week we were notified (not via any official letter or memo) on Facebook that there were plans to build a road of some sort along the old railway lane which is now mostly the Trans Penine Trail. If this was to happen it would run no more than 20 meters away from our house. To say we are shocked at this proposal is an understatement.

The thought of all those cars, lorries, buses flying up and down it sends me sick. The air pollution that it would cause when motorways are closed (which is a regular weekly occurrence). Warrington would grind to a complete halt with all this additional traffic.

I want to also object to the plans to build thousands of houses on the green belt around Grappenhall too. The beautiful countryside is only 15 minutes walk from our house and I enjoy daily walks around there like thousands of other people. It would ruin the landscape and people's everyday lives completely.

When we lived on [REDACTED] we used to get woken up in the night by drunks and drug addicts fighting and shouting. Now on [REDACTED] we get

woken up by [REDACTED] on the banks of the old railway line,
Tawny Owls hooting away on the railway line and Buzzards squawking in
the morning sun - its beautiful. And to think people want to ruin and
destroy their environment too. They dont have a voice to stop this do
they. It makes us all sad.

I hope everyone from Warrington south can get together and stop these
hiddeous and laughable plans.

Thanks for reading.

Yours sincerely,

[REDACTED]
